

Maya Gavin **Storyboard Artist/Supervisor**

Work examples at <http://www.mayagavin.co.uk/storyboards>

I am a versatile storyboard artist with 8 years experience working on a wide range of shows with varying styles and for different age ranges. I work well under pressure and deliver panels to deadline. I am self-motivated but really enjoy working as part of a team on a production.

I am an effective and clear thumbnail artist and I enjoy boarding dynamic, fun characters and witty storylines with emotional character interaction. I have experience boarding for 2D, 3D and stop motion as well as musical sequences for original songs on the Series WOTE (Walk off The Earth) and classical music (Passion Pictures, undisclosed project).

As a board supervisor I found my time in the wider design industry to have given me a thorough grounding in both critical thinking and professional conduct. I found supporting a story team to realise a directors vision to be incredibly rewarding and an absolute pleasure. I hope to be able to take my experiences forward to future roles.

STORYBOARD

Current

KEY SKILLS

Drawing for storyboards: Creating sequential images from a script to depict the story and action. Continuity in direction of action, camera angles and camera moves. Perspective, staging and composition. Strong figurative drawing with on model characters. Posing and action. Strong thumb-nailing.

Storyboard Pro: I have a thorough understanding of the storyboard process, including exporting boards for edit, naming conventions and continuity in revisions.

Blender: Manipulating 3D sets to create camera angles for storyboard.

Panelforge: Knowledge of 3D and 2D Storyboard creation.

Workflow Protocols: Setting up a standardised workflow for story artists to follow including naming conventions, delivery specifications and an emphasis on responsibility to other workers in the chain.

Photoshop: Drawing and image manipulation.

Remote Working Experience: I have the tools to work remotely and I am familiar with all the necessary software for important meetings and team communication

Communication - Google Chat/Meet/Drive, Zoom, Skype, Slack, Outlook.
Board management, transferring files and asset access (Shotgun and Kitsu).
Accessing a remote workstation (PCoIP client/Teradici).

HOBBIES

In my spare time I write and draw. I also enjoy Chinese brush painting.
I keep fit and healthy, practice Karate and I am attempting to learn drums.

EDUCATION

Middlesex University. Graduated 1994.
BA Hons Visual Communication Design.
